

Aeroweave Baselayer

Size Guide

Two sizes. Built for four.

Engineered stretch lets one size move across two. M/L fits Medium and Large. L/XL fits Large and Extra Large. The Aeroweave compression knit adapts to a wider range of bodies without losing structure or support, so two sizes do the work of four without compromise.

Fit: compression, second skin silhouette. If between sizes, select the larger option for a less restrictive feel.

Measurements (cm)

Size	Chest Circumference	Clothing Length	Neck Width	Sleeve Length
M/L	68 – 72	60 – 62	15.5 – 16.5	63 – 65
L/XL	72 – 76	62 – 64	16.5 – 17.5	65 – 67

Measurements are garment measurements, not body measurements, and reflect the compression knit at rest. Engineered stretch extends the effective range beyond the figures above.
